We are pleased to invite you to the **4th International Renal Pathology Conference**, one of the most important meetings dedicated to native and transplant kidney diseases, which will be held in **Warsaw, April 16 – 18, 2020**. The Conference is a joint meeting of the **Renal Pathology Society, The Department of Transplantation, Nephrology and Internal Medicine, Medical University of Warsaw** and the **Nephropathology Working Group of the European Society of Pathology**.

The Conference will include **32 lectures** presented by renown international kidney disease experts, and will include histopathological and molecular diagnostic features, pathogenesis, pathophysiology and clinical manifestations.

In addition, **three clinicopathologic seminars** with exceptionally interesting cases representative of various types of native and transplant kidney diseases will be presented and discussed.

We also invite attendees to **submit an abstract of**

**their research** in a field of renal diseases, as well as **interesting case reports**. The most interesting ones will be selected for poster presentation, and the best posters will be entered for an award to be presented during the conference.

The venue for the meeting will be the **Education Center of the Medical University of Warsaw** located in the city center, easily accessible by public transportation and at a short distance from many tourist attractions, museums, the Old Town, restaurants, cafes and hotels.

We look forward to seeing you in beautiful spring time in Warsaw, the capital of Poland, a city of rich history, culture and science.
